

Scalability & Future Plan

Date	5 jult 2026
Team ID	XXXXXX
Project Name	A Comprehensive measure of well-being
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Only tracks physical health metrics	Misses mental/social factors	High
2	No longitudinal tracking	Can't see trends over time	Medium
3	Self-report bias in surveys	Data may be inaccurate	Medium

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	1k users ,serveys lag	ADD async survey delivery+ CDN
2	Data Storage	Flat DB for scores	Time -series DB for well-being trends
3	Performance	3s load for dashboard	Cache PERMA/ WHO -5 caluclations
4	Security	Basic auth	HIPAA/GDPR compliant encryption for health data

Future Roadmap:

Phase	Planned Feature Enhancement	Target Timeline	Expected Impact
Phase 2	Multi-dimentional dashboard PREMA+WHO-5+ physical	Q1 2026	Users see full well-being picture instead of just 1-2 metics. Increases engagement+insight accuracy
Phase 3	AI-driven personalized recommendations+ longitudinal trend analysis	Q3 2026	Moves from “measurement” to “action” Users get tailored nudges for sleep, stress, relationship improve actual outcomes
“Phase 4	Community benchmarking + social support integration	Q4 2026	Adds context by comparing to similar demographics.Reduces isolation. Drives accountability through peer groups
